

E-Tuf™ Tarps and Rollstock Fabrics for Asset Protection

INNOVATIVE DESIGN AND MANUFACTURING PROCESS

- **HIGH QUALITY AND STRONGER FABRICS**
High strength UV stabilized and/or Flame Retardant fabrics ensuring long life.
- **HIGH QUALITY TARP GROMMETS**
High quality large-hole brass grommets with proprietary manufacturing process to maximize strength.
- **E-TUF™ 1, 2, OR 3 FOR EVERY APPLICATION**
E-Tuf™ 1 for almost every application with E-Tuf™ 2 or 3 for very severe service.
- **MANUFACTURED IN CANADA**
E-Tuf™ tarps and systems are designed and manufactured in Edmonton, Alberta, Canada.

INNOVATIVELY ENGINEERED FOR STRENGTH AND LONG LIFE

ECI is a professional manufacturing, installation, and inspection/maintenance services organization serving Western Canada. Our mission is to provide unsurpassed service with the lowest cost recommendations for any given application. Count on us to provide tarps and rollstock fabrics that prevent moisture damage to your valuable assets while being cost effective and designed to last.

E-Tuf™ tarps have been designed to be strong and long-lasting while minimizing manufacturing costs. High quality fabrics and brass grommets have been specifically chosen for strength with a proprietary manufacturing process that maximizes strength. E-Tuf™ tarps are an exceptional alternative to more expensive designs and can be quickly made to order in any size.
